Testimonial

I was the first homeopath in Sweden that bought Radar at a cost of about 3000 euro and with this support to the Radar project I was promised to have every new version without any costs.

All the time since then I have felt great satisfaction to be a part of this group of about 40 homeopaths that supported the Radar project from the beginning.

Since about 1989 when I bought the Radar-program I have been in contact with at first Dale Emerson because for some years I was a dealer.

As a dealer I was invited to Barcelona for a Radar-meeting.

At that meeting I met Frederik Schroyens for the first time and was listening to his teaching about Synthesis. Already at that time I understood what tremendous work Frederik had done to create Synthesis. which has been very helpful in my praxis as a professional homeopath

I have regularly got new versions since that time and have understood that most of the tremendous homeopathic work was done by Frederik

Homeopathy is in constant development and I have been listening to Frederik. and admired his last version Synthesis Adonis.

I am sure that many people have worked with the Radar-program Opus and Synthesis Adonis but the man who has done most of the homeopathic part is to my knowledge and understanding Frederik Schroyens. Many thanks to Frederik and his contribution to homeopathic science, it has helped me and my patients a lot.

I deeply regret to hear that he has been removed from the Zeus team and is not able to continue his lifetime work Synthesis.
