RE: Frederik Schroyens

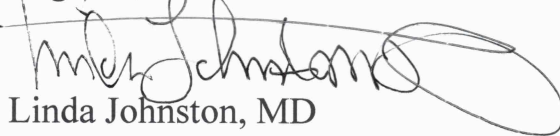

To whom it may concern,

I have known Frederik Schroyens for over 30 years. During that entire time, he has repeatedly shown himself to be of the highest honor, integrity and dedication to Classical Homeopathy. His life's work has been devoted to building and maintaining the Synthesis Repertory and other foundational homeopathy reference materials at the highest standard of accuracy and utility. The work he has done can't be done by just anyone. It requires a particular combination of knowledge, experience, diligence and persistence for excellence, to which Frederik has always displayed.

Homeopathy as a science and a profession can only thrive when dedicated people, like Frederik Schroyens, devote their time, knowledge, expertise and love into maintaining its very foundation. Few get this call, and ever fewer answer it with the enthusiasm and commitment that Frederik has done for his entire professional life.

It is with great pride that I call Frederik my friend and colleague.

Regards,

Linda Johnston, MD
