Subject: Re: Synthesis Repertory

Dear Frederik

As someone who has been in the profession for 45 years, I want to acknowledge the remarkable work you have done in the form of the *Synthesis Repertory*.

This valuable contribution has become synonymous with your name in the Homoeopathic community worldwide.

As its author and custodian, you have invested almost your whole life in creating, refining, and nurturing this work.

The dedication, precision, and painstaking effort behind it is evident to anyone who has ever used it.

It is not just a repertory, but a living testimony to your vision, discipline, and devotion to the science of Homoeopathy.

More than a book, *Synthesis* has become an institution in itself.

It stands as an authentic, and comprehensive reference in our profession.

For this, I express my deepest gratitude and admiration for your lifelong service.

Rajan
